ANR Pipeline Company, Brownsville Compressor Station
Brownsville, Haywood County, Tennessee

Permit No. SOP-99013
ANR Pipeline Company, Cottage Grove Compressor Station
Cottage Grove, Henry County, Tennessee

Dear Mr. Fortner:

This letter is a follow up to a phone conversation that occurred in early October 2014 with Miss Harse regarding the submittal of the facility's permit renewal applications. It is the division's understanding that your company is giving consideration to renovating and modifying the site to reduce the wastewater flow to simply wash water. The reduction in wastewater would allow your facilities to intermittently pump and haul the wash water to a local municipal plant instead of spray irrigating. Your current spray irrigation permits expire on March 31, 2015. An application for either a spray irrigation permit or a pump and haul permit needs to be submitted this month. Since your application was not mailed to our office 180 days prior to the current permit expiration date of March 31, 2015, discharges from the facility will not be automatically authorized through administrative extension of the current permit if the permit is not reissued by March 31, 2015. If you have questions, please contact Miss Julie Harse at (615) 532-0682 or by E-mail at *Julie.Harse@tn.gov*.

Sincerely,

Vojin Janjic
Manager, Water-Based Systems
